

Offshore Engineering Society

YOUNG ENGINEERS' SEMINAR

CALL FOR SPEAKERS

Supported by:

ATKINS

Member of the SNC-Lavalin Group

Wednesday 9th May 2018 at 1800h

Institution of Civil Engineers

One Great George Street, London, SW1P 3AA

The Offshore Engineering Society invites young engineers to present a summary of their recent academic or commercial work with emphasis on the development of new methods and technologies to meet current or future challenges in the offshore industry. This could be related to either the offshore oil & gas or renewable energy market.

Speakers will use a PechaKucha style presentation – 20 slides, each shown for 20 seconds, followed by 3 minutes of questions from a small judging panel of friendly industry experts. The use of any props or supporting material is encouraged.

Speakers will be judged on technical content, clarity of communication and prizes will be awarded at the end of the evening:

1st Place: £150 Amazon Voucher

2nd Place: £75 Amazon Voucher

After the presentations there will be an informal drinks reception at the ICE and opportunity for speakers to network with members of the society, supporting organisations and other guests.

If you are interested in speaking, please submit a short summary (no more than 200 words) of your chosen topic to honsec@oes.org.uk by 1st April 2018. If you have any further questions, please don't hesitate to contact us at the same email address. Further information about the society can be found on our website at www.oes.org.uk.
